Introduction

Lesbian Sex is intended to inspire and entice lovers to broaden their sexual repertoire. Our bodies have the potential to feel an array of sensations. When we more fervently explore our sexuality, both alone and with our lovers, we uncover hidden, uncultivated desires and discover newfound pleasure possibilities. Indulging in novel, sensual activities as well as revisiting the tried and true vanilla types of sex positions will also sharpen lovemaking skills and increase intimacy between lovers, one delicious experience at a time.

Each lovemaking experience is composed of intimate moments. These moments are physical, emotional, and intellectual communications and connections between lovers, and the best sex results happen when these moments flow. Experiment with different positions to suit your mood and facilitate the type of connection you're into pursuing. For example, **Deep Breathing (#25)** will arouse your mind as much as it warms your pussy, as will **French Cuff (#50)**, which explores the sexy intrigue of dominance and submission. Sometimes we'd rather our minds take a backseat during lovemaking. For these lustful moments, choose a position like **Anti-gravity Girl (#97)**, which is pretty much purely physical. Some positions are sensory specific; **Honey Bun (#15)** is about touch and truly feeling your lover's entire body, **Lickety Split (#22)** is about tasting, and **Diamond in the Muff (#58)** encourages the recipient to watch while she's orally pleasured.

As you strive to become a self-assured lover and to experience more pleasurable and satisfying sex, do what makes you and your lover or lovers comfortable and happy. As always, practice clean, safe, honest, responsible, and consensual sex. Buy your toys and lubrication from reputable vendors who will share with you their sexpertise for proper use. Play within your abilities and never force yourself into demanding postures. When you choose and act

out a position, the only expectation going into it should be to have fun and enjoy one another as you share in some fresh loving.

In addition to providing a sort of *Kama Sutra* for lesbians, **Lesbian Sex** introduces a lexicon inspired by colleagues, friends, and lovers. Double entendres, code words, cryptic phrases, and nicknames have always been part and parcel of the LGBT (Lesbian, Gay, Bisexual, Transgender) community. These turns of phrases can pass as flirting, convey desires and preferences, amuse, and trigger fond memories.

Tell her how you're looking forward to taking a **Joyride (#79)** with her later. Invite her to meet at your favorite café for a **Tea for Two (#46)**, come over to your place for a **Garden Party (#63)**, or join you at the breakfast bar for a **Diamond Lil (#29)**. I invite you to **Untangle Her Tingle (#91)** in 101 ways, from **Lilith and Eve (#1)** to **Gilding the Lily (#101)**, and in no particular order.

1

Lilith and Eve

This lovemaking position is all about Eve, who lies on her back, her legs wrapped around the seated Lilith. Eve's every indulgence is catered to by the attentive Lilith who caresses Eve's breasts and tugs her nipples before tending to Eve's fruit. Lilith brings Eve to climax by stimulating Eve's clitoris with her fingers and thumbs. Additionally, Lilith may moisten the length of her fingers and slip them inside of Eve.

2

The Daily Grind

Rubbing leads to an orgasm for many women. Bottom lies on her back with top pleasantly crushing her as bottom grinds, swivels, and rhythmically rubs her clit against her lover's thigh or pubic bone. For added friction, bottom clasps her top's buttocks and pulls her closer. Enhance the Daily Grind with kissing, erotic pillow talk, and neck and nipple nibbling.

3

The Full Grind

The Full Grind achieves maximum pussy contact with both women propped up on their hands and elbows, the bottom lover twisting onto her side with her leg draped over her lover's same leg. The women spread, slide in, and rotate and grind, usually in a circular rhythm, intermittently pressing into each other, clit to clit, wet pussy to wet pussy. As juices mix and things heat up, the woman on top is in the best position to pull up on her own fur to free her hardening clit and fully expose it to the rewards a full grind can bestow.

4

On the Side

Both lovers lie on their sides, one spooning the other from behind. The rear lover rubs and pats her lover's clitoris, as the front raises her leg for ease of access. During an On the Side, the woman being pleasured may reach back to place her hand on her partner's thigh or clasp her buttocks, perhaps returning the fingering favor by delving between her girl's legs.

5

Over Easy

Top is on all fours perched comfortably over bottom who lies on her back. The women are in reverse directions so that top's clit hovers just above bottom's mouth. Bottom wraps her hands around top's buttocks to better control the cunnilingus. Bottom may prefer a pillow for neck support since the time it will take for a woman to climax is as unpredictable as, well, a woman.

6

Needle in a Haystack

During an Over Easy, as top's pussy floats above the face of her lover, she leans forward to insert her finger in and out of bottom's pussy. Also, bottom may "needle" her top by inserting a finger, vibrator, or dildo into her lover, either during the oral sex or while her tongue takes a break.

7

Vanilla

In this traditional missionary clasp, top penetrates her lover with a strap-on dildo, aka “clit extension.”

8

Girl Wrap

To add more force and depth to Vanilla lovemaking, bottom wraps her legs tightly around her girl, maximizing her ability to thrust and be thrust into by her lover. As with Vanilla, top does her lover while wearing a strap-on dildo, the size, shape, and color of which can be chosen to match any mood or enhance any occasion.

9

Velvet Rope

In this Daily Grind variation, bottom lies on her back, one leg outstretched and the other bent and pulled up and out for VIP access. For balance, top may lean forward on one arm to brace herself as she rubs her velvet up and down bottom's thigh, teasing bottom each time she brushes against her eager pussy.

10

Welcome Back

Nothing says “I missed you” like rimming her from behind as she bends over on her hands and knees and raises her luscious ass. Keep the greeting clean by using a latex barrier, which won’t dull the sensations. The anus contains highly sensitive nerve endings similar to those in the genitalia and capable of inducing much pleasure. As arousal grows, licker reaches between her lover’s legs to stroke her clit.

11

Wave Pool

To move into a Wave Pool from a Welcome Back, licker scoots up and rubs her pussy on her lover's heel and calf, introducing the potential for duel orgasms. While being orally and anally stimulated, bottom connects to the rhythm and can join in on or take over clitoral stimulation, stroking her own hoochie-do to achieve a truly rippling climax.

12

Toe the Line

Top is on her knees, firmly holding her lover's feet to nibble and suck her toes while penetrating her, in and out, with a strap-on dildo. Bottom lies on her back, knees almost together and pulled up to her chest, most likely quivering from this unusual combination of sensations.

13

Rocking Horse

In this position, which is notable for more gentle penetration, bottom lies back comfortably, legs up and resting on top's shoulders. Top is wearing a strap-on dildo and is on her knees, lifting herself up and squatting down again, tenderly rocking in and out of her lover's vagina, her hands remaining free to fondle her lover's breasts.

14

Saturn's Rings

The lovers are seated, legs bent and intertwined, facing one another in a near embrace, pussies scooted forward. Fingers slide in and out of each other's vaginas. For the ultimate in simultaneous penetration, use the ingeniously designed double dildo (an insertable toy with two penetrating ends; silicone is the best in quality and flexibility). Lubricate the dildo and insert it with one or both women holding the sex toy as firmly as needed until both are receiving it comfortably. At first, use hands to steady the toy; ultimately, the vaginal muscles should take over to allow the hands to roam. Swivel pelvises together in an elliptical motion to reach vaginal and clitoral climaxes that are out of this world.

15

Honey Bun

Honey Bun lovemaking is often a pleasantly surprising result of what begins as an “innocent” back massage. Top lies on her lover, pressing the entire length of her body onto her while rubbing and grinding her own clitoris and labia into a frenzy. Even if a massage is not a prelude to your Honey Bun, begin by dripping a light, glistening coat of massage oil on your lover’s backside for an extra slippery slope to come on.

16

Honey Bun 2

Both women can climax in a Honey Bun 2. Similar to Honey Bun, one woman lies face down, hips slightly raised toward her lover who stretches out on top and rubs her pussy on her lover's sweet buns. While mashing, top's hand pulls up on her own bush to release her excited, enlarging clitoris for maximum stimulation. Meanwhile, bottom raises herself up further onto one arm and pleasures herself with her other hand, fiddling with her own clitoris, perhaps pressing on it with her thumb while popping a finger in and out of her own vagina.

17

Penthouse

On a chair, counter, table, or bed, the lavish lady stands erect, towering above her lover who is situated beneath to lick and probe. The penthouse dweller can drape one leg over her lover's shoulder to increase pussy access and maintain steadiness. Explore varying heights since the stature of the lovers will factor into scoring a supreme, ultraluxurious Penthouse.

18

Stair Mistress

Both women stand, the Stair Mistress with a leg up on a step of some sort so that her lover can comfortably reach between her legs. If the step is low enough, she can also straddle and rub up and down on her Stair Mistress's leg while continuing to please the mistress with her touch.

19

Tribade Tirade

The bratty bottom is on her stomach, but bends and kicks her legs up toward top's bum so that top, more erect than in Honey Bun 2, has back-reaching pussy access while she rubs her own clit and vulva on bottom's backside. As the tirade continues, top may switch to breast play in an attempt to appease bottom who insists on feeling her dominant lover's moist, swollen pussy first hand.

20

Peek-a-boo

The woman performing oral incorporates a rhythmic fence-painting motion of full up and down licking over her lover's entire nether region. Slow, broad licking allows top the sensation of fully enjoying her lover's tastes and textures and intimately experiencing her lover's arousal.

21

Peek-a-boo Brasil

As she feels her lover heat up, top inserts her fingers, usually one at first, then more as the vagina opens to receive them. Slip them partially out before pushing inside again, over and over while continuing to Peek-a-boo. Pressing firmly into bottom's vaginal ceiling and repeatedly pulling the fingers downward with a stroking motion can stimulate her G-spot for a *maravilhoso* orgasm.

22

Lickety Split

During foreplay, the women face each other, kneeling with their legs parted and touching. Bottom kisses and lightly nibbles her lover's nipples, her tongue encircling the areola, as both women touch themselves, exploring their swelling, moist pussies. Top interrupts the breast play by inserting her wet fingers into the mouth of her lover for a taste of what's to come.

23

Doubleheader

During a Doubleheader, one woman lies on her back, orally pleasing her lover, who straddles her in a reversed position on all fours, simultaneously going downtown. Remember to attend to the inner thighs and other sensitive areas in and around the vulva before focusing solely on her clitoris. Communicate in between licks and flits so as to time the rhythm and control the pressure to experience the grand slam—simultaneous orgasms.

24

Dutch Tulip

In this sideways Doubleheader, the women go down on each other while lounging on their sides. Lower legs are extended to act as headrests for the intertwined lovers.

25

Deep Breathing

While receiving oral, the fully extended bottom raises her chest and stretches her neck, rolling back onto the top of her head to expand and enhance her ability to breathe into a deep, all-over climax.

26

Priscilla's Punchbowl

Bottom lies on her back smothered by top who sits upright on bottom, facing forward with her punchbowl squarely in bottom's face. While being orally pleasured, top can rest her hands on her lover's midriff, fondle her lover's breasts, or dip in to touch herself.

27

My Baby's Bliss

Bottom lies serenely on her back, straddled by top who lightly fingers both her lover's clit and her own. Top leans close to lightly blow on her lover's nipples. This is a great position for second or multiple orgasms and a very nice prelude to Deep Breathing.

28

Lovey Dovey

In this cozy variation of Honey Bun, bottom is up on all fours as her lover kneels behind her and presses and rubs against her buttocks and thigh. During the humping, top can firmly press one thigh between her lover's legs to stimulate her vulva and reach down to work her lover's clitoris. Placing one leg on the floor will give top more personal grinding power.

29

Diamond Lil

Lil sits casually on a bar stool to receive oral from the woman crouched in front of her, whose face is buried in Lil's pussy, her hands on Lil's hips.

30

Tipping the Velvet

One woman sits in a chair while her lover, reversed in position and facing down toward the floor resting on her forearms, rubs her clit on the sitter's bouncing thigh. While Tipping the Velvet, sitter should feel free to get busy on herself with one hand while her other hand's fingers and dexterous thumb keep her lover content through sitter's masturbatory climax.

31

Amelia and Eleanor

Amelia climbs on top of the seated Eleanor and sits reversed on her lap. Eleanor stimulates Amelia and arouses herself with breast play and clitoral rubbing. She may even begin to roam deep inside if and when Amelia is ready for insertion. Amelia then stands up on the chair so her pussy hovers over Eleanor who licks and strokes Amelia, coolly monitoring her flight and controlling her “take-off.”

32

Best in Show

Bottom is on all fours, while top, ideally wearing a strap-on (but a hand-held dildo will do), kneels behind her lover, hands around her waist or holding onto her hips, and humps her, vigorously driving the love tool in and out of her lover's wet, swelling vagina. Best in Show is a supreme position for G-spot stimulation because of the angle and the more forceful thrusting and deeper penetration it affords.

33

Cherry Picker

Gently nibble the labia and clitoris and tweak her nipples to spice up the fence-painting of a Peek-a-boo session.

34

Hanky Spanky

Bottom is stretched out, one leg bent at the knee and tucked under. Coming up on her hands she leans in to dart her tongue in and around the kneeling top's pussy. As she's being licked, top spanks her lover, slapping her fine ass over and over. If bottom's heel is properly placed underneath her, it will touch her clit, which will fully absorb every blow.

35

Tuk-tuk

Two women sit side by side, perhaps in the back seat of a taxi. Passenger leans over to peck at her traveling companion's tantalizing nipples and supple neck. She may not wait to reach her destination to subtly slip her hand down her pal's pants or up her skirt. A ticking meter and erratic lane changes are no reason to rush. Maintain firm stimulation and a steady rhythm on and around her moistened clitoris.

36

High Art

In this seated Doubleheader, one woman sits in a chair and from behind, licks the pussy in front of her face. Her arms are wrapped around the hips or lower back of her lover, who stands on this same chair straddling her and leaning over in order to mutually taste the delights below. Blood rushing simultaneously to the head and to the vaginal region produces a fun buzz and dizzying climaxes.

37

Imperialism

Top either stands, comfortably resting against a wall, or sits tall, legs spread in an outstretched Diamond Lil. She parts her legs for bottom, who kneels, worshipping at her pussy, honored to have been given the privilege to orally please her highness.

38

Backdoor Imperialism

The combination of rear oral stimulation to her anal region and vaginal and clitoral fingering is a royal turn-on for the standing recipient.

39

On the Fence

Top climbs on the “fence” formed by her lover, who lies on her back on the edge of the bed or a chair. Bottom bends her legs at the knees and braces them on the floor for support and leverage to elevate and rotate the fence-rider at will. While top rubs herself to climax on her lover’s leg, she can gain access to bottom’s pussy by leaning a bit to one side of the fence and sliding her hand in between her lover’s thighs.

40

Annie Oakley

Ride her, cowgirl! For the Annie Oakley, the horsie lies on her back on an ottoman, a chair, or the edge of the bed with her feet planted on the floor so Annie can mount her. Horsie bounces the sharpshooter up and down, and a simultaneous circular grinding motion is encouraged while sitting in this saddle. For increased mobility and to maintain her balance, Annie places one foot on the floor and tucks the other between her lover's legs. It's optional for the horsie to don a strap-on, hold a hand-held dildo, or slip her hand between the rider and her ride.

41

Opening Pandora's Box

Bottom lies on her back, legs up in the air slightly parted so that top, who squats reversed on bottom's face, can more easily play with bottom's box while she receives oral. To prolong this position, bottom can ease the abdominal muscle strain by resting her legs or feet on the headboard or against the wall.

42

Tailgate

Both women are on their knees, tailgater's body pressed against her lover's backside. As she kisses and lightly bites her lover's neck and nibbles her shoulders, tailgater's hands wander to her lover's breasts, nipples, and pussy. During the groping, front can reach back to squeeze her lover's tail.

43

Don’t Ask, Don’t Tell

For an added sensory delight, Tailgate her as she’s “deprived” by a blindfold. If tailgater raises one leg, placing her foot on the floor or bed, her lover can reach down to feel the heat between her anonymous tailgater’s legs.

44

Sappho's Smile

This submissive position, whereby bottom bends and lifts her parted legs, virtually removes bottom's ability to thrust or rotate her hips while receiving oral pleasure. Top has total control of the velocity and rhythm of the cunnilingus and, ultimately, of her lover's climax. Rest bottom's bottom on a pillow for a more comfortable angle and to increase the longevity of this lyrical lovemaking.

45

Secretary

Boss calls secretary into her office, cuffs or ties her hands with her scarf, and commands her to climb onto her lap. Boss firmly dictates her intentions while attending to secretary's breasts and pussy, but secretary likely requires additional oral instruction or on-the-job training with toys. Place the still-bound secretary on the desk for a role reversal variation on Diamond Lil, whereby the dominant licker below maintains total pussy control.

46

Tea for Two

Seated across from one another, the lovers scoot themselves forward to the edge of their chairs, legs outstretched and leaning back onto their hands so their hips can thrust upward, allowing each woman to rub her privates up and down her lover's thigh. A seated Full Grind can be achieved if the chairs are close enough for the women to press their pussies together. Keep the small, lace-clothed table formed between you steady to enjoy a discreet Tea for Two in a public tearoom.

47

Marco Polo

Bottom twists so she is nearly on her stomach as she straddles her lover's lower leg. Top, on her side, explores and fingers her lover from behind. At first, explorer simultaneously grinds on and presses into bottom, and it's possible for the two pussies to gently mash. Once moist and warm, sexy bottom receives finger or dildo penetration from her lover. Performed at its finest, Marco Polo is a great position for the lovers to discover play with a double dildo as they twist and thrust into one another.

48

A Tail of Two Girlies

One girlie stands and bends at the waist with her tail up in the air as another, seated, licks her from behind. As the seated lover's tongue flits about the excitable anus region, her hand cups the receiver's pussy and her fingers stimulate the clitoris, perhaps popping in and out of the receiver's vagina.

49

Rear Admirable

In this Welcome Back variation, the standing anilingus receiver bends completely at the waist, the rimmer stretched out beneath her, propped up and bracing herself on her elbows, enabling her to simultaneously fondle the receiver's breasts and tweak her nipples. This is also a great position for introducing a butt plug sex toy into everyday lovemaking. As with any anal penetration, use lots of proper lube and take it easy and slow.

50

French Cuff

Bottom is on her knees, face to the floor and hands restrained behind her back. Top kneels behind her, holding her in place with one hand while the other slips in and out of her vagina and rubs *sa petite praline.*

51

Whole in One

She's on her back writhing, a direct result of her lover's touch. As the rapture grows, the lover works up to inserting her whole hand (four fingers), pushing them in and drawing them partially out of her, over and over again. While moving in and out, she curls and presses her fingers into the vaginal ceiling and pulls down in order to stimulate her lover's G-spot. Liberally lubricate to enhance the sexcapade, and engage the other hand to stimulate her clitoris to take her to the highest pinnacle.

52

Nip, Tuck

Top rubs her breast on her lover's hardening clitoris and presses her nipple into her moist vagina. A pillow or a hand tucked under the small of bottom's back affords a better angle for increased control and pressure. Top ultimately climaxes by reversing the Nip, Tuck and rubbing her own pussy on the breast and nipple of her totally turned-on lover below.

53

Footsie Roll

Bottom lies on her back and places one footsie on her lover's breast, holding the other lower for her lover to mount. She moves and rotates her foot within the pussy region, while top simultaneously grinds on the foot to climax.

54

Gertrude and Alice B.

During a Doubleheader, just as her mouth is bringing her lover's swelling clitoris to an orgasmic release, one lover inserts a well-lubricated finger into her partner's anus. Don't switch freely back and forth from anal to vaginal without washing up first. Before insertion, prepare the area by stimulating it to allow the sphincter to relax and open up as it becomes aroused. There's no need to probe deep to set off the multitude of pleasure-inducing nerve endings here.

55

Tight Squeeze

During a Best in Show, bottom may transition into a Tight Squeeze, characterized by tightening the path of entry to enhance the sensation of the thrusting on the vaginal walls. As bottom rises from all fours and crouches onto her lover's lap, squeezing her thighs together to receive the penetration from behind, the pressure from the inserted dildo will be better directed toward her G-spot erogenous zone.

56

Patty in the Sky

Patty stands reversed on a chair, holding the back for support as she bends at the waist. Her seated lover cups Patty's pussy or inserts her fingers inside her moist vagina and spanks naughty Patty's bottom with her other hand.

57

Maryann and Ginger

Maryann lies flat on her back, being straddled and teased by the lovely pussy just out of tongue's reach. Top squats onto her lover's face, moves about and pulls up as she pleases, directly controlling exactly how much fresh Ginger Maryann will taste.

58

Diamond in the Muff

Top positions herself between her lover's legs, perhaps warming the pussy with a vibrator before unabashedly diving into her woman's luxurious muff. This is a perfect position for a steamy session of sucking and tugging on the jewels—the clit and labia. The privileged recipient props herself up onto her elbows to watch.

59

Swan Dive

In the Swan Dive variation of Sappho's Smile, top opens further and gently presses down on the receiver's legs while continuing to bob up and down, nibbling and licking every widely liberated nook and cranny.

60

Moulin Rouge

Dancer lies on her back with one leg kicked straight up so her lover can take full advantage of her limberness. Top kisses, nibbles, and licks her lover's thighs before dipping into her fully exposed pussy. As the women heat up during the cunnilingus session, licker mounts a leg and rubs her wet pussy and hardening clit toward that same climactic place her lover is nearing. With some practice, lovers will find that this is a perfect position for achieving simultaneous orgasms.

61

Sunday Brunch

Bottom lies on her back, feet on the bed or floor with her pelvis raised up to top's mouth so top can munch a bunch. As a side dish to the Sunday Brunch, the oral recipient inserts a Needle (a single finger) into her lover's too tempting to ignore Haystack. And although women naturally taste different at different times, apply sexpert-approved sex condiments for an array of flavor enhancers.

62

Soft Tease

Thrill her by stirring up her juices with a vibrator. Top employs slow, gentle movements to explore the surface of her lover's vulva. The quivering recipient lies on her back, legs casually spread and pelvis raised, perhaps resting on a wedge or pillow. While being teased, bottom may slip a hand or an additional vibrator between her lover's legs to simultaneously arouse her sleeping beauty.

63

Garden Party

Prolong a Dutch Tulip by taking turns tending to each other's fertile ground with the more leisurely Garden Party. Both women remain on their sides, one continuing to tongue the other's clitoris, while the other removes her head from between her lover's legs and simply glories in the continued attention. If desired, the oral recipient can coil her top leg tightly around her lover's back to press her face deeper into the folds of her flower.

64

Fur-lined Teacup

When performing a Fur-lined Teacup, top sits on the face of her lover who lies flat, cupping her lover's buttocks and sipping her tea. Top can transition into an Over Easy by rising farther up on her knees so as to reach forward to pet her lover.

65

Peaches and Cream

Bottom lies on her back, raises her legs, and tucks her body into a bowl shape to hold the luscious top who sits on bottom's chest. Top leans back, bracing herself on the bed or by clasping bottom's backside or hips, her peaches and cream perfectly positioned and ripe for the tasting.

66

Peach Gobbler

To stir up Priscilla's Punchbowl, top leans slightly forward and up on her knees to lightly bounce up and down on her lover's face. Bottom should expect to raise her chin and roll her head back slightly to accommodate this new angle and the increased motion of a Peach Gobbler. An additional sex buddy can take turns playing with the oral recipient and attending to the pussy of the industrious woman on her back.

67

The Bush Agenda

The dominant top's agenda is to completely plunder and pillage bottom's bush until she pleads with her to stop. Bottom is on her back, totally exposed to top, who stands or kneels cockily over her, hands roving everywhere. Top lifts bottom up to her mouth by draping her legs over her shoulders. Amend the position by having bottom bound and gagged.

68

Mane and Tail

Bottom is on all fours, with her hair fashioned into a ponytail, which serves as the reigns for her rider. For short-haired bottoms, improvise with a scarf across her chest and under her arms. Top squats up and down in her saddle, pressing and rubbing her pussy on bottom's bare back and ass, commanding "halt," "steady girl," "trot," and so on. A feisty horsie might buck, but surely, that's nothing a seasoned rider can't control.

69

Mortise and Tenon

Every carpenter knows that exquisite tooling is mandatory for the ultimate in joinery. The seated women face each other, legs spread and intertwined, perhaps enjoying a Tea for Two before lifting their feet up onto the chairs. One handywoman then aligns and inserts a “tenon,” whether it’s a finger or a sex toy, into her lover’s tight hole, or “mortise.”

70

Exposed Beams

Before or after Peaches and Cream is a perfect time to maneuver into Exposed Beams. Top lies fully extended on her lover below, touching herself at will. Bottom slides her lover toward her eager lips and, using a pillow for neck support, meets and greets the incoming pussy. During the oral sex, bottom stretches one hand up to attend to a breast while the other assists the tongue in bringing top to climax.

71

The Juxta-position

Compare and contrast the feel of a wet pussy juxtaposed against a firm ass cheek. One woman kneels on the edge of the bed, legs spread and extended to the floor, while her sex mate lies back on cushions or an ottoman adjacent the bed, head on the floor, and legs raised and spread to straddle her lover. The kneeling woman bends and straightens her legs in order to press her hot buns into the wet pussy below. The reclining lover, hips in motion and unable to contain herself, brings herself to climax by hand.

72

Pussy Pilates

Both women lie face up, top lying on her outstretched lover, her legs curled back and bent at the knees, pleasuring herself. Bottom adds to the “jilling off” going on above by treating her to some breast play and neck nibbling. Top’s far-reaching hand or vibrator can stroke and stimulate both pussies.

73

Who's on Top?

Top straddles and sits on her lover, leaning back so bottom, busy despite being flat on her back, can work top's nipples or clitoris with one hand and enter her pussy with the other. Meanwhile, top reaches underneath herself to enter her lover's hot zone. As she nears climax, top pushes one of bottom's hands aside and takes over—a conundrum that begs the question, who's doing who?

74

Riveting Rosie

Bottom is on her knees, giving herself a hand job, perhaps incorporating a vibrator or working her own strap-on dildo, while top simultaneously does her from behind wearing her own accessory. Tuck a vibrator into the pocket of the strap-on harness for a riveting bonus.

75

The Cleopatra

Both lovers are seated, legs snaked together, and are leaning back on their elbows to increase their ability to hoist and thrust with their hips, twisting, rubbing, and pressing their pussies together. Like Saturn's Rings, the Cleopatra can incorporate a single or double dildo for a rubbing and penetration combination.

76

Tongue and Groove

She flips onto her side and curls her legs up so her lover's tongue can thoroughly explore her grooves. From the tip of the clit, along the lips of the labia, in and around the vagina, and to the anus, there are seemingly insatiable nerve endings demanding that attention be paid.

77

Stud Muffin

Suck her cock. The pressure alone (plus the naughtiness factor) from a good Stud Muffin can bring a strap-on wearer to a clitoral climax.

78

Bathroom Stall

Not wearing a strap-on? The woman on her knees can blow her sex buddy by focusing her sucking on the super sensitive head of the clitoris.

79

Joyride

To take a Joyride together, both women sit upright, top on bottom's lap, with one of bottom's feet placed on the chair. Top straddles her girl's raised leg and slides her buttocks into the nook created at her lover's hip. Top then raises and lowers herself to rub on her lover's thigh and can reach down to explore what's going on with her woman's "bizness." For a particularly memorable trip, add a "joystick" by inserting fingers or a dildo into the happy rider.

80

The Flying V

Resting on her upper body and shoulders, hips and buttocks up on the edge of the bed, bottom spreads her legs and elevates her vagina into the air. Her partner lies on her stomach, comfortably outstretched on the bed, face down in the floating delight. This position eases the neck strain often associated with an extended cunnilingus session.

81

The Eagle Has Landed

Bottom lies on her back permitting top to hold her by the ankles and spread her legs wide. Top maintains the ankle hold while pumping in and out. Bottom is free to stimulate her own clitoris or to help navigate the strap-on prop.

82

Bridge and Tunnel

During Priscilla's Punchbowl, while continuing to sit on the face of her lover, top rewards her lover's oral flair by reaching back to fool around with bottom's horny hoochie.

83

Mariana's Trench

After a bit of Peek-a-booing and before a Peek-a-boo Brasil is an ideal time for the tongue to navigate the depths of the vagina. One must go full-face into her lover's pussy to truly experience the unfathomable wonders abounding in the warm, soft moistness. Repetitive, deep tonguing will often make Mariana come.

84

Mount St. Helen

Bottom, lying on her back, holds a dildo for top to mount. While top pumps and grinds, she leans forward and smothers bottom with her beautiful boobalas. Top and bottom rub their own clits, bottom perhaps utilizing the base of the dildo as she thrusts it in and out of top. Mount St. Helen often leads to dual orgasmic eruptions.

85

(Her Name Here) on the Half Shell

To indulge in a fresh girlie on the half shell, top lies bottom on her back, slightly rolled onto one side and casually spread. Top then pins bottom's thigh to use it as a pillow as she angles herself in between top's legs and lingers. Bottom enlists her other leg, foot planted on the bed, to propel her pelvis up, rotating it in slow, circular thrusts while being tasted. It has been said that the sexual appetite of Venus was first whet during this lovemaking position.

86

Pussy Melt

To exhibit just how wet she has become, top straddles bottom, placing her hands on her lover's thighs for balance, and raises herself onto her haunches. Over and over, she unites her package with the pussy below before pulling away. A vibrator strategically placed instills extra heat for both lovers.

87

Victoria Square

For a ripping good time, bottom props herself up on her elbows and shoulders, using her hands to support her lower back, and raises her legs up high, resting them on the shoulders of her lover. Top stands, positions her lover by cupping her bum, and bends over to provide oral pleasure.

88

The TriBeca

In this perfect triangle, bottom sits with legs outstretched and spread, lover on her lap with knees bent, feet planted, and legs spread wide. Bottom and top vie for position as both strive to bring one another to climax with their hands. Additionally, top's writhing provides bottom with solid clitoral stimulation.

89

Slow, Easy G

This position leads to a deep and pleasurable G-spot orgasm for some women. Bottom lies on her back, hands on the hips of her lover in order to lift her up and down on her strap-on hard-on. Top sits outstretched on the lap of bottom, leaning back on her hands to brace herself as she is slowly and deliberately raised up and down. Top may shift her weight and free up a hand to simultaneously rub her swelling clitoris as she approaches climax.

90

Ready-to-Wear

Both women stand, one pressed behind the other, the front reaching back between her partner's thighs while the tailgater fondles her companion's breast and fingers her pussy. This is a convenient position for new friends to hastily get to know one another, and it can be discreetly performed in a public dressing room.

91

Untangle Her Tingle

Bottom lies back while top sits nearly erect, braced on her hands and leading the movement to suit her fancy. Legs are spread for pussies to tango in a circular, figure-eight, or more traditional up-and-down motion.

92

Favorite Handbag

Bottom lies on her back, hips propped up with a pillow atop top's upper thighs. Top pushes her hand or hands inside her lover as much as the vaginal expansion comfortably allows. As opposed to the lazy days of a Whole in One, bottom becomes active, drawing her knees together and contracting her vaginal muscles, embracing and releasing the many fingers inside her until she can no longer postpone the climax.

93

Bi-coastal

The two coasts collide, as the lovers stand *womano a womano*, facing and fondling one another.

94

Last Call

In this sprawled TriBeca, she collapses into the lap of her friend who takes full advantage and caresses her all over. While being felt up, the lap-sitter twists her neck so that the couple can passionately make out.

95

Strawberries and Cream

Top kneels between her lover's legs or straddles one leg and intermittently rubs on a thigh while pleasuring bottom manually. Bottom sits back comfortably and tweaks, kisses, and caresses her lover's breasts. Strawberries and Cream is perfect as foreplay, a midday lovemaking snack, or post-orgasm dessert.

96

Hump Cake

Bottom is lying on her stomach with one leg dangling off the bed. Top is on her knees, pressing into her from behind. Bottom positions her pussy on the edge of the mattress to stimulate her clitoris while top mounts the horizontal leg, rubs around, and ultimately comes all over bottom's lovely ass.

97

Anti-gravity Girl

Like the Slow, Easy G, this position provides an angle of penetration that can lead to a unique climax. Anti-gravity Girl lies on her back, propped up on her elbows and shoulders and supporting herself with her hands. Top hoists Anti-gravity Girl's legs up and onto her shoulders, holding onto her thighs in order to press against her body and penetrate her with a strap-on dildo.

98

Toast Her Oven

Bottom twists slightly to one side, shoulder braced against the headboard or back of chair, upper leg raised and coiled over the thigh of her lover, who straddles and rides the outstretched lower leg of her sideways bottom. Top thrusts her hips forward to press the two muffins together, which are sure to be toasty from the friction and excitement.

99

Anaïs and June

Top sits on her horizontal lover, one leg dangling over the side of the bed, the other up on the bed next to her lover's side. While bottom buries her hand inside this open invitation, she too is made accessible to her lover by lifting one leg and resting it on her lover's shoulder. To evolve from Anaïs and June into a Moulin Rouge, top simply maintains the hold on her lover's raised leg and slides herself down to taste.

100

Soft Crush

To savor the experience of this rubbing variation on the oral Moulin Rouge, top comes up on her knees to straddle her lover who lies on her back, one leg kicked up and running the length of her sex partner's body. Top maneuvers down until the two pussies meet and crush.

101

Gilding the Lily

After an exemplary, delicious climax, lick her warm, wet, silken labia.

Checklist

Many positions involve friction, others rely on a clitoral focus or demand going deep inside, and some require toys, props, or special attention to a particular erogenous zone. Use this handy list as a visual reference when choosing a new position to verify those you've mastered, perhaps even jotting the date and location of the sexcapade in the margin. You can also denote favorites and indicate those you aspire to experience.
